Are you aware of the huge amount of waste created by the modern human society in our day to day life?

Yes, I am aware of the wastes created by the modern human society.

Do you believe that the evils of climate change and global warming have direct link to this? Could you justify your answer.

Due to global warming the sea level is increasing leading to reduction of land area provided to mankind which in turn increases the amount of waste.

How could you contribute in the management of this global environmental problem?

- Afforestation
- Use of public transport.
- Reduce use of plastic
- Spread awareness.

Has our school contributed in raising your awareness on this issue? If so, how? Name the awareness programme you have participated in.

Yes, my school has given me the opportunity to participate in the Project Citizen program which has enabled me to spread awareness all over my school and society.
