STUDENT'S NAME

Ishika Poddar.

CLASS

VI D

AGE GROUP: ☒ (I) 12-19

(II) 19-30

(III) 30-45

(IV) 45-65

Are you aware of the huge amount of waste created by the modern human society in our day to day life?

Yes, I am aware of the huge amount of waste created by the modern human society in our daily life.

Do you believe that the evils of climate change and global warming have direct link to this? Could you justify your answer.

Yes, I believe that evils of climate change and global warming have direct link to this because today's biggest problem is PLASTIC because of which it causes global warming.

How could you contribute in the management of this global environmental problem?

I can contribute by making awareness of 'NO PLASTIC'. I can also ask people to do carpooling instead of personal vehicles. The biggest contribution can be Planting Trees.

Has our school contributed in raising your awareness on this issue? If so, how? Name the awareness programme you have participated in.

My school had given me the opportunity to take part in 'Karo Sambhavo' Programme as well as we did a project on PLASTIC collected in a week at our home.
