Are you aware of the huge amount of waste created by the modern human society in our day to day life?

Yes, I am aware of the amount of waste as my school has organised many workshops.

Do you believe that the evils of climate change and global warming have direct link to this? Could you justify your answer.

Yes, I do believe that evils of climate change and global warming has a direct link because of the plastic wastes.

How could you contribute in the management of this global environmental problem?

We should have three dustbins.  
We should recycle and reuse paper.  
We should not use plastic.

Has our school contributed in raising your awareness on this issue? If so, how? Name the awareness programme you have participated in.

My school has allowed me to take part in the Think Tank of the Vital Waste Competition. This has taught me the various ways to recycle plastic wastes.
